● ABOUT ME

Enthusiastic and detail-oriented Software Developer with a solid foundation in both front-end and back-end technologies. Proficient in Java, Javascript frameworks, and tools relevant to fullstack development, I am eager to apply my technical skills and collaborative mindset to contribute to dynamic and innovative projects. A quick learner with a passion for staying abreast of industry trends, I am poised to bring fresh perspectives and a commitment to excellence to a growth-focused development team.

● WORK EXPERIENCE

01/09/2020 – 30/01/2021 United Kingdom
INTENSHP TC RESOURCE TECHNOLOGY

I collaborated with multiple teams on the development of a learning management system (LMS) mandated by stakeholders. This involved gathering user stories, utilizing the MoSCoW method for functional and non-functional requirements, and establishing the project roadmap before commencing development.

01/01/2023 – CURRENT Lagos, Nigeria
APPLICATION SOFTWARE DEVELOPER MANIFOLD COMPUTERS LIMITED

1. I participated in building a financial forecast application using React, Tailwindcss, and Nodejs for the Finance Team. Translate the Figma design from the UI/UX designer using React Js, which I was given, integrate the API or endpoint given by the backend developers, and deploy it to the live server using AWS.
2. Using nodejs , fastify and mysql created an endpoint for extracting data from excel sheet and saving it to mysql db,implementing the endpoint to the frontend. Also using excel js from the backend designing the layout of the excel file that will be downloaded.
3. Constructed an e-commerce platform by employing frontend technologies including React, Tailwind CSS, Babel, ReactRouter-Dom, and Redux, coupled with backend technologies such as Nodejs, Expressjs, MySQL, Dotenv, and Nodemailer.
4. Implemented secure payment processing and user authentication, and ensured responsive design and a seamless user experience across different devices.
5. utilized version control (git) and other essential tools for efficient development and code reliability.
6. Mapping of Manifold e-commerce website to Zoho e-commerce through domain management and adding of SSL certificate for security.
7. I updated the company Wordpress website with new pages and designs and integrated Google Analytics using a plugin called MonsterInsight.
8. I integrated a form to the website where people can sign up and did an email automation so that when they sign up and after they have signed up an email will be send to them reminding them of the event.
9. Handle and Manage Manifold social media accounts and Ads.
10. Handle and manage Manifold Google Business Profile.
11. Monthly Wordpress website backup and save to sharepoint.

11/04/2024 – 23/04/2024 Ogun, Nigeria
WEB DEVELOPERS FREELANCE

Build a blog website using WordPress.

26/05/2024 – CURRENT Lagos, Nigeria
SOFTWARE DEVELOPERS LOCKMARKET

I collaborated with a team to build an e-commerce platform, focusing on implementing the registration section based on a Figma design using Next.js and Tailwind CSS.

I developed a responsive wallet-connect website for a specific client using Next.js, Tailwind CSS, Web3, and other dependencies.

● EDUCATION AND TRAINING
